

ATMC Cable Update

Effective July 31, 2020

HBO Go Discontinued Effective July 31, 2020

HBO will be discontinuing (removing) the HBO Go app from all device platforms as of July 31, 2020. This means that HBO Go will no longer be available to any subscribers on devices including iPhones, iPads, Android devices, etc. Existing HBO Go users will continue to have access to all HBO content via the new HBO MAX app.

This is a decision of HBO based on consumer confusion related to HBO Max, HBO Go and HBO Now all being active in the marketplace.
